CAREER OBJECTIVE

Results-driven **Software Engineer & Guidewire Developer** with strong expertise in Java, Gosu, Spring Framework, RESTful APIs, and relational databases. Experienced in configuring insurance solutions on Guidewire PolicyCenter, building scalable backend architectures, and collaborating in agile teams to deliver robust enterprise applications.

TECHNICAL SKILLS

Languages: Java, Gosu, C/C++, JavaScript, SQL, XML

Web & Frontend: HTML5, CSS3, JavaScript, React, Tailwind CSS, Bootstrap

Guidewire & Backend: Guidewire PolicyCenter, Spring Boot, Spring MVC, Hibernate, JDBC, REST APIs

Databases & Tools: MySQL, Git, GitHub, Guidewire Studio, VS Code, Eclipse, Postman

WORK EXPERIENCE

Mahathi Infotech — Junior Software Engineer (Guidewire Developer)

April 2025 – Present | Coimbatore

- Developed and configured **Guidewire PolicyCenter** solutions using the **Gosu** language and Java for enterprise insurance workflows.
- Customized PCF screens, business rules, data models, and enhancement classes to implement complex policy lifecycle requirements.
- Designed backend integration points and RESTful web services with relational databases using JDBC, Hibernate, and SQL.
- Transitioned from *Software Engineer Intern* to full-time *Junior Software Engineer*, actively participating in sprint deliveries and agile code reviews.

Meastro Technologies — Front-End Developer Intern

March 2025 – April 2025 | Coimbatore

- Engineered responsive, dynamic web interfaces using HTML5, CSS3, Sass, and JavaScript ensuring seamless cross-device compatibility.
- Collaborated with UI/UX designers and backend developers to enhance performance, accessibility, and user satisfaction.

Elena Geo Systems — Student Intern

July 2023 – August 2023 | Bangalore

- Interfaced STM32 microcontrollers with hardware sensors and GPS modules for real-time telemetry and navigation data collection.

PROJECTS

Key Shops – Locksmith & Key Duplication Platform

React, JavaScript, REST API

- Built a digital marketplace connecting users with verified locksmiths for automotive and residential key duplication across South India.
- Designed responsive search, filter, and location-based discovery features with SEO optimization.

Eagle Accys India – Smart Digital Commerce Platform

Next.js, Tailwind CSS, Dark Mode

- Developed an interactive digital commerce and multi-tier referral web portal featuring dynamic product kits and performance metrics.

Car Parking Management System

Java, Spring MVC, MySQL, JSP

- Developed a real-time parking tracking system with full CRUD operations and RESTful APIs, optimizing query speeds by 25%.

Secure Online Banking System

PHP / Java, MySQL, JS, Security

- Engineered a secure transactional banking portal with role-based authentication, balance tracking, and encrypted credentials.

EDUCATION

B.E. in Electronics and Communication Engineering — CMS College of Engg & Tech, Coimbatore

2020 – 2024 | CGPA: 7.5

Higher Secondary (+2) — Sapthagiri Matric. Higher Secondary School

2019 – 2020 | 77%

CERTIFICATIONS

- Java Full Stack Development** – JSpiders, Bangalore
- Core C/C++ Programming** – Udemy
